Q. Sewage means the water-carried human or animal wastes from residences, buildings, industrial establishments or other places, together with such groundwater infiltration and surface water as may be present. A mixture of sewage as herein defined and industrial wastes or other wastes as defined above may be considered industrial wastes or commingling within the meaning of this article.
R. Stormwater Runoff means the portion of total precipitation that travels over natural and developed land surfaces (e.g., woodlands, lawns, farms, gardens, roofs, driveways, parking lots, roads, etc.) transporting contaminants that may be present.
S. Temporary Disposal System means a system for the disposal of sewage where such system is intended for use for a specified period of time prior to completion of the construction of an approved sewage treatment and disposal system.
T. Toxic or Hazardous Materials shall mean the same as defined in Article 12 of this Code.
U. Toxic or Hazardous Wastes shall mean the same as defined in Article 12 of this Code.
V. Treatment System means a system designed to reduce or alter the contaminant content of sewage or industrial waste for the purpose of permitting the discharge of some portion of said waste.
W. Water Supply Sensitive Areas means:
1. A groundwater area separated from a larger regional groundwater system where salty groundwater may occur within the Upper Glacial aquifer, and where deepening of private wells and/or the development of community water supplies may be limited; or
2. Areas in close proximity to existing or identified future public water supply wellfields. In general, for the purposes of this article, "close proximity" shall mean within 1,500 feet upgradient or 500 feet downgradient of public supply wells screened in the Upper Glacial aquifer.
3. A limited water budget area, not underlined by fresh Magothy, defined by published reports acceptable to the commissioner.
4. The areas described in items W.I., 2., 3., above are set forth on a map adopted by the Board filed in the Office of the Commissioner in Haup-pauge, New York.
Section 704. Powers of the Commissioner
The commissioner may:
A. make or cause to be made, any investigation which, in his opinion, is needed for the enforcement of this article or for controlling or reducing the potential for contamination of the waters of the county from sewage, industrial or other wastes, toxic or hazardous materials and/or stormwater runoff;
B. approve, with conditions, non-residential structures, processes, facili-
